SILENT NIGHT

That's sweet.
Oh.
Is it the chocolate, or is the sweetness in the dough? I guess there's no way to know unless you're an expert.
I wonder, since I'm out maybe I should bring her one.

Kyou-ko...?
Saya-ka!
Whatcha' doin'? Way out here.
Big Sale
OFF
Uh... nothing really.
What's with that outfit...
My part time job.
Okay, then...

Well... I'm not really doing anything, just randomly killing time.
See ya later! Don't be late, Sayaka-aaa!
dash
...
It's cold... I should just go find a shop to sit in.

Could it be that today...
Jingle Bells
gloom
There's been so much going on lately I completely forgot... I seriously thought it was a while away...
12月25日…？
※Christmas Day
You thought today was a regular day? Too bad! It's Christmas!
Ugh...

...Sayaka, sorry! People just kept coming...
It's fine, whatever...
I'm totally sorry!!
If I catch a cold then it's your fault...
Chilly...

NO WAY.
Come on, it's a great idea! Let's do it!
?
You aren't in the mood to talk?
...Here

Merry Christmas! It's a little late though...
I got it from work earlier. Let's eat it together.
Right here?
Right here.
...
I'll go get some canned coffee...
ACHOOO

...I forgot.
Oh...
ACHOOO
I just picked this up while I was waiting. Not like it's thanks for the cake or anything.
Merry Christmas.

But yeah, not outside...
Hmm, okay then, let's eat that cake...
So where should we go eat? We need to hurry before it goes bad! You should never waste food!
How about Mami-san's house, then. Let's head over there, for now.
...Is that okay?
Mami probably has plans..

Kyouko: "Hey, do these match?"

Sayaka: "What? No way."

Kyouko: "Mh hmm..."

HomuMado

Homura: "This will do."

Madoka: "What are you trying to do, Homura-chan?"

Homura: "You don't need to worry about it, Madoka."

Afterword

Thanks for picking this up. To the first timers and repeat readers, I'm pun2. There's going to be a MadoMagi movie, I think it's nice to see it revitalized again. Nominee Matsui Rena-chan is also helping promote it. Compared to Madoka, Homura-san or Ary, KyouSaya is easy to draw. But QB is the easiest of all. I didn't get a space for myself at FuyuComi, so an acquaintance of mine is going to have my work at his spot. It's just the usual Idolmaster book. I've been really busy with illustration work this year, but I also learned a lot. Starting next year I want to get a lot more serious with doujin work. Or something like that.

See you again at Fuyu or next year.

PS: Kyouko is a society girl, so it's nice to have a birthday near Christmas.
